PROJECTS

KT-HR CONNECT | **AUGUST 2023 – PRESENT** | KOKTAIL SOFT

"KT-HR CONNECT" is a groundbreaking Human Resources (HR) Application designed to revolutionize HR management within organizations. This innovative software solution serves as a centralized platform to streamline and optimize HR processes, resulting in increased efficiency and improved employee management. With its user-friendly interface and comprehensive feature set, KT-HR CONNECT empowers HR professionals to automate routine tasks, track employee data, manage recruitment processes, facilitate performance evaluations, and streamline communication channels, all while ensuring compliance with industry regulations and standards. By leveraging cutting-edge technologies and best practices, KT-HR CONNECT is poised to transform the HR landscape, driving organizational success and fostering a culture of productivity and engagement.

- **Role:** Developer
- **Technology Stack:** Angular, Bootstrap, MySQL, MongoDB

- **Responsibilities:**
  - Designed and developed intuitive and visually appealing web pages using Angular and Bootstrap.
  - Implemented responsive design techniques to ensure seamless user experience across various devices and screen sizes.
  - Identified and resolved frontend issues promptly to maintain optimal website functionality and user satisfaction.
  - Deployed frontend updates using WinSCP and Putty, ensuring smooth deployment processes and minimal downtime.
  - Actively participated in Scrum meetings to collaborate with cross-functional teams and align development tasks with project goals.
  - Conducted performance optimization to enhance website speed and responsiveness.
  - Contributed to the creation and review of design documents and test cases to ensure high-quality deliverables.

LAGNAKARYA| AUGUST 2023 – PRESENT | KOKTAIL SOFT

Lagnakarya Vivahsanstha is a free application developed by Snehadip Technoserve Pvt Ltd. It stands as India's premier Marathi matrimony platform, dedicated to facilitating meaningful connections within the community. The application empowers users to find their life partners within their own community and caste, fostering relationships built on shared values and traditions. With Lagnakarya, users can explore a vast database of eligible matches, customize their search preferences, and engage in meaningful conversations.

- **Role:** Developer
- **Technology Stack:** Angular, Bootstrap, MongoDB, Ionic, Node JS.
- **Responsibilities:**
  - Analyzed and understood client requirements to develop features that meet business needs effectively.
  - Led the migration effort from Angular 5 to Angular 17, ensuring smooth transition and improved application performance.
  - Implemented new features and functionalities using Angular, Bootstrap, MongoDB and Node JS.
  - Managed deployment processes to deploy updates and ensure continuous availability of the application.
  - Identified and resolved bugs promptly to maintain high standards of application reliability.
  - Implemented best practices to enhance code quality, maintainability, and scalability of the application.
  - Collaborated closely with team members to streamline development processes and meet project deadlines effectively.
